University certificate for Credential Evaluator

III Edition

65 participants

9 ECTS

3 months

1 final project work

**Certificate of Specialisation
Course for Credential
Evaluator**

Accessibility

Microcredentials are often more affordable and can be completed **online**, allowing individuals to learn at their own pace and schedule.

Flexibility

Flexibility makes microcredentials particularly attractive to working professionals who may not have the time or resources to pursue a full degree program.

Qualification

Microcredentials provide course participants with a qualification that is **valuable in the job market**.

Innovation

Microcredentials can be quickly updated and adapted to **reflect changes in technology, industry trends, and job requirements**.

Conciseness

Unlike traditional degree programs, microcredentials can typically be earned in a **matter of weeks or months**.

Specificity

Microcredentials allow individuals to focus on acquiring the **precise skills needed for their desired career path**.
